DETAILED ACTION

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over the acknowledged prior art of paragraph 005 of the instant specification in view of Dach et al. These claims are considered met by the acknowledged prior art of paragraph 005 of the instant specification except for a projection. It would have been obvious in view of the projections shown on the outer circumference of the sleeve 2 of Dach et al to provide at least one projection on the sleeve of the acknowledged prior art of paragraph 005 of the instant specification in order to provide for better sealing and to facilitate movement of the sleeve.
